THE NEWS. From Madison we learn that the Legislature is adjourned on the 17th, sine die. From Washington we have the confirmation of the appointments by the Senate, among which are James M. Buchanan, of Md., as minister resident at Denmark; and C. W. Morgan, minister to Portugal. Other news from the Capital is not particularly important.

The American Tract Society are again at war about a certain resolution relating to the moral duties which grow out of the existence of slavery. We have further particulars of the late Bill and accident on the New York Central Road.

The steamer Mobile, which arrived at New York yesterday, reports having been fired into by the British steamer Syria, and afterwards released. The usual variety of news will be found in our columns this morning.

The New York produce markets was without material change yesterday. Our market was dull, and prices rather on the decline. Weather warm and pleasant, and general business brisk.

Editorial Correspondence of the Sentinel. Madison, May 12, 1858.

At length the Legislative Session, which has been protracted and laborious beyond all precedent, draws to a close. This morning both Houses closed upon Monday next as the day of final adjournment. The bulk of the business will, of course, be disposed of by Saturday, though a few bills may be left over till Monday. The Journals of the Senate and Assembly will be volumes of ponderous tomes. Indeed, the number of legislative enactments, and the great applications of the Executive veto, have been unusually large. But a great deal of it has been useful and will stand. The two great topics of the Session have been the investigating of the Land Grant Legislation of 1856, and the Revision of the Statutes. The first has occupied a great deal of time and cost much money; but the result, it is thought, will be satisfactory. The Revision of the Statutes has also been a work of much care and labor, but there will not have been in vain, if they shall prevent, for some years at least, that constant tinkering with the Laws of the State which has been the love of previous Legislatures and the source of much confusion and uncertainty in the administration of justice.

The investigating Committee will submit their report to-morrow. The document is looked for with much interest and anxiety. It will probably be accompanied by a bill looking to some further legislation on the subject of the Land Grant. I cannot yet ascertain what the character of the Committee's recommendations will be, or what the probable fate of those recommendations.

The subjects of the Capitol extension and Capitol removal excite much feeling at Madison, and are not unattended. It seems settled that the Legislature will not consent to go on with the present Extension plan, and the prevailing sentiment is in favor of pulling down the present structure, instead of attempting to patch it up.

The proper remedy, it is thought, is the great diversity of opinion, and at this late hour of the session, it seems somewhat doubtful whether these opinions can be so harmonized as to lead to any definite action.

The Insurance bill has passed both Houses amended, however by striking out the clause regarding a deposit from Foreign and Home Companies.

The Governor continues to receive letters of inquiry about the "American Homestead Company," a very peculiar one came to hand this morning. It was from a Clergyman in New Jersey, and asked these questions:

- 1. Is the American Homestead Company a reality, or a myth?
- 2. The land of the best quality?
- 3. How many shares must be sold before the distribution?
- 4. Is the company such a one that a religious man can make a venture in it without guile of conscience?

I suspect that the reply of the Governor will not be flattering to the Company. Both Houses are hard at work to-day, and rushing through business at railroad speed. The weather is delightful, and vegetation a week ahead of that on the Lake Shore.

WHAT THE SOUTHERN RADICALS THINK.—The Charleston Mercury says the passage of the Fugitive bill "will not only agitate; and those who think that the Union is to be preserved by such instrumentalities, will only add another proof of the vanity of their timid and short-sighted policy." The Mercury also believes "the Douglas doctrine will most probably annihilate, at the next Fall elections, the Democratic adherents of the South in the North, and present in the popular branch of the next Congress, an almost unbroken Southern sectional majority against it." This opinion is well founded.

A NEW DOCTRINE.—Mr. Jacob Wallick, of Milwaukee, Holous Co., Ohio, who for some years has been known as religious subjects, took it in to his head, a few weeks ago, that he was commissioned to burn down all the churches. Accordingly, on Thursday last, he proceeded to the Lutheran church, about 4 miles west of Milwaukee, and set it on fire. After staying to see that his work was well done, he proceeded to a Methodist church, situated in the same neighborhood, and set that on fire also. Fortunately, however, the fire was discovered before much damage was done, and is now in jail. He is still of the belief that the only salvation for our people is in his getting out and burning the churches.

LADIES ABOUT KILBOURN CITY.—A writer, (J. H.) in the Milwaukee Sentinel of last Friday, gives a very correct account of Kilbourn City, the Delta, Newport, Delton, &c., but falls into an error regarding the purchase of lands about Kilbourn City. He says:—"The holding by speculators, of large tracts of land, at enormous and unreasonable prices, immediately around the town site, is a great drawback to their property." No doubt the writer had obtained from somebody some information; but it is about as far from the truth, as the fact that he bought within four miles of the town site for three or four dollars an acre; and it is but a few weeks since we heard one of these "speculators" offer good lands at a price certainly this is not enormous or unreasonable. In other respects the writer has done justice to our Kilboourn City.

SAILING FOR LIVERPOOL. The schooner Star of the North, cleared to-day, from this port with cargo for Liverpool, being the second clearance from Detroit, and that the season. The schooner Col. Cook will sail this week, to be followed the present month by six others, all loaded with staves and lumber for Liverpool direct.

**Fire and Inland Navigation**

Business accepted at terms consistent with solvency and fair profit.

Special attention given to insurances of DWG LINGS and Contents, for terms of 2 to 5 years.

The progress of this Corporation has been stable and uninterrupted through seasons of financial stringency as shown, or periods of growth in or exempt from depression.

effect to be in no material particular.

Under "Incidents" the security of reliable insurance and the fact that the insurance companies are not subject to an imperative duty—the ability of property owners to obtain loans being thus much lessened.

Agencies in all the principal cities and towns throughout the State, and in the principal cities of the neighboring daily authorized Agents of the Company.

Business attended to with dispatch and addition.
